Java | Python | Data Structures and Algorithm | JS
HTML | CSS | SQLPlus

PROJECTS

MOVIE REVIEW SYSTEM USING SENTIMENT ANALYSIS
- Created a Movie Review System where i used machine learning to perform sentimental analysis of reviews.
- For Dataset we using real time data which is reviews available on the IMDB website for any given movie.
- By using sentimental analysis i can decide whether to watch that film or not.
- for extracting review available on IMDB website i used Web Scraping for that.

Irreversible Encryption for Securing ATM Transaction
- In this we provide additional security to the PIN generated for the ATM and Protect from Man in the Middle attack
- Comparison of different kinds of algorithm and the advantages of Hash algorithm to find the better of three.
